SnaveUK Discord Call Report

Project:	Project Updates and Action Items
Organization:	SnaveUK
Date:	May 2026
Author:	Mateus, Jaum, Julia, Schmidt, Juliana, Estevao, Pedro

Executive Summary

- The team discussed the Penalty Shootout Football Trivia Challenge project, including a build and potential bugs.
 - Schmidt mentioned changes to the Maitrics project's architecture, which may require significant updates.
 - Juliana discussed SEO and AI search work, highlighting the need to adapt content for AI searches.
 - Estevao mentioned the Castleman Books project and issues with Microsoft invites.
 - The team also discussed payment and contract issues with a client, potentially affecting project timelines.
-

Project Updates

Penalty Shootout Football Trivia Challenge

- Mateus mentioned the build and potential bugs, with Estevao suggesting waiting to fix bugs before creating a new build.
- Jaum discussed his experience with the project, including a hospital visit and issues with his PC.

Maitrics

- Schmidt discussed changes to the project's architecture, which may require significant updates to support multiple primary organizations per user.
- He expressed concern about the potential for errors and plans to work carefully to avoid issues.

SEO/AI Search Work

- Juliana discussed the importance of adapting content for AI searches, which requires a different approach than traditional SEO.
- She highlighted the need to understand how users search and create content that meets their needs.

Castleman Books

- Estevao mentioned issues with Microsoft invites and the project's progress, including a message from Rob about Cognito.

- He plans to investigate the issue and provide an update.

Action Items

Owner	Project/Topic	Action	Priority
Estevao	Castleman Books	Investigate Microsoft invite issues	Medium
Schmidt	Maitrics	Update project architecture to support multiple primary organizations per user	High
Juliana	SEO/AI Search Work	Continue adapting content for AI searches	Medium
Mateus	Penalty Shootout Football Trivia Challenge	Fix bugs and create a new build	Medium

Risks and Blockers

- **Maitrics:** Changes to the project's architecture may introduce errors or require significant updates, potentially delaying the project.
- **Castleman Books:** Issues with Microsoft invites may affect the project's progress or timeline.
- **SEO/AI Search Work:** Adapting content for AI searches requires a different approach and may require significant updates to existing content.

Key Decisions / Confirmed Facts

1. **Maitrics architecture changes:** Schmidt will update the project's architecture to support multiple primary organizations per user.
2. **Castleman Books Microsoft invites:** Estevao will investigate issues with Microsoft invites and provide an update.
3. **SEO/AI Search Work:** Juliana will continue adapting content for AI searches.
